Experience

INTERN SOFTWARE DEVELOPER, BİZİMHESAP - FEBRUARY 2022 / APRIL 2022

I did experienced the internship as a software developer. We did some integrations and API tests with Postman and used Visual Basic to understand the problems between our web application and customers. We used Microsoft SQL Server as database system and also used the source code the find out the problems that we have with customers. Also did some extra integrations when there is a request to integration by a customer to a specific web services like Wix, Trendyol, MNG Kargo etc.

INTERN DATA SCIENTIST, TURKISH AIRLINES — MAY 2019 / OCT 2019

I studied with Python and SQL, I also learned some tricks with OpenCV while working in the company.

IT SUPPORT AND WEB DEVELOPER, IGT PROJECT GROUP — SEPT 2018 / MAY 2019

I worked for a construction company and help the staff to configure electronic devices, e-mails. I managed the servers and dealt with the network problems while I am working there. Also I was responsible to design the website of company.
